

Frequenzen für dein Leben

Studien aus der klinischen Bewertung des Healy

1. Elektrotherapie, Licht- und Strahlentherapie: Grundlagen für Physiotherapeuten und Masseur, Frank-P. Bossert, Klaus Vogedes, 2. Auflage, Elsevier GmbH, Urban & Fischer Verlag
2. Leitfaden Elektrotherapie mit Anwendungen bei über 130 Krankheitsbildern, Frank-P. Bossert, W. Jenrich, Klaus Vogedes, Elsevier GmbH, Urban & Fischer Verlag
3. Schmerzbehandlung mit biomedizinischer Akupunktur: neurowissenschaftlich begründete Punktauswahl, Y.T. Ma, M.Ma, Z.H. Cho, 2005, Elsevier GmbH, Urban & Fischer Verlag
4. Vocalization response to close-arterial injection of bradykinin and other algescic agents in guinea pigs and its application to quantitative assessment of analgesic agents, Adachi KI, Ishii Y., J Pharmacol Exp Ther. 1979 Apr;209(1):117-24
5. Taschenatlas der Biochemie, Jan Koolman, Klaus-Heinrich Röhm, Thieme Verlag
6. klinische Pathophysiologie, Walter, Siegenthaler, 9. Auflage, 2006 Thieme Verlag
7. Arzneimittel, Pflege konkret, Jelinek, Grabs, Elsevier GmbH Urban & Fischer Verlag
8. Pädiatrische Rheumatologie, Wagner, Dannecker, Springer Medizin Verlag Heidelberg
9. The effects of electric currents on ATP generation, protein synthesis, and membrane transport in rat skin, Cheng, M.D., Clin Orthop Relat Res. 1982 Nov-Dec; (171):264-72
10. Cytokine changes with microcurrent treatment of fibromyalgia associated with cervical spine trauma, McMakin, Gregory, Phillips, jbm (2005) 9, 169-176
11. The efficacy of frequency specific microcurrent therapy on delayed onset muscle soreness., Curtis D, Fallows S, Morris M, McMakin C., J Bodyw Mov Ther. 2010 Jul;14(3):272-9. Epub 2010 Feb 19
12. Electro-membrane microcurrent therapy reduces signs and symptoms of muscle damage., Lambert MI, Marcus P, Burgess T, Noakes TD., Med Sci Sports Exerc. 2002 Apr;34(4):602-7
13. microcurrent therapy: a novel treatment method for chronic low back myofascial pain, McMakin, jbm, Vol.8 , Issue 2, p. 143-153 (2004)
14. Novel microcurrent treatment is more effective than conventional therapy for chronic Achilles Tendinopathy: randomized comparative trial, Chapman-Jones, Physiotherapy, Vol. 88 (8), Aug. 2002, 471-480
15. Bone changes due to pulses of direct electric microcurrent, Jean Riches, Virchows Archiv, Vol 357,1,11-18.
16. Using cranial electrotherapy stimulation to treat pain associated with spinal cord injury., Tan G, Rintala DH, Thornby JI, Yang J, Wade W, Vasilev C., J Rehabil Res Dev. 2006 Jul-Aug;43(4):461-74
17. Effect of electrical stimulation waveform on healing of ulcers in human beings with spinal cord injury, Baker LL, Wound Repair Regen. 1996 Jan-Mar;4(1):21-8
18. Treatment of Dekubitus Ulcers, Jesse J. Barron et al., Minn. Medicine Feb. 1985; 103-106
19. Ultra-low microcurrent therapy: a novel approach for treatment of chronic resistant wounds., Lee BY et al., Advances in Therapy, Nov/Dec 2007, Vol. 24, No. 6
20. M.E.N.S.: A revolutionary new electrotherapy - Part I, Robert I. Picker, Dynamic Chiropractic, Nov 1990, Vol.8, issue 23
21. The basis for microcurrent electrical therapy in conventional medical practice, Joseph M. Mercola, DO and Daniel L. Kirsch, PhD, DAAPM, Journal of Advancement in Medicine Vol.8, No. 2, Summer 1995

22. Cranial electrotherapy stimulation for the treatment of depression., Gunther M, Phillips KD., J Psychosoc Nurs Ment Health Serv. 2010 Nov;48(11):37-42. doi: 10.3928/02793695-20100701-01. Epub 2010 Jul 22.
23. A pilot study of cranial electrotherapy stimulation for generalized anxiety disorder, Bystritsky A, Kerwin L, Feusner J., J Clin Psychiatry. 2008 Mar; 69(3):412-7.
24. Cranial electrotherapy stimulation (CES): a safe and effective low cost means of anxiety control in a dental practice, Winick RL, Gen Dent. 1999 Jan-Feb; 47(1):50-5.
25. Cranial electrotherapy stimulation as a treatment for anxiety in chemically dependent persons, Schmitt R, Capo T, Boyd E., Alcohol Clin Exp Res. 1986 Mar-Apr;10(2):158-60
26. A study of the effects of cranial electrical stimulation on attention and concentration, Southworth S., Integr Physiol Behav Sci. 1999 Jan-Mar; 34(1):43-53.
27. Some aspects of electrical sleep and its therapeutic value, Magora, F., Beller, A., Assael, M.I. & Askenazi, A. In Wageneder, F.M. and St. Schuy (Eds.), Electrotherapeutic Sleep and Electroanaesthesia. Excerpta Medica Foundation, International Congress Series No. 136. Amsterdam, Pp. 129-135, 1967
28. Low intensity transcranial electrostimulation improves human learning of a psychomotor task. Madden, R.E., & Kirsch, D.L. American Journal of Electromedicine, (1987). 2(2/3), 41-45.
29. Interferential current is effective in palmar psoriasis: an open prospective trial. Philipp, A., Wolf, G.K., Rzany, B., Dertinger, H., Jung, E.G. Eur J Dermatol 2000; 10: 195-8
30. Cranial Electrostimulation - a new nondrug method of treating of initial stage essential hypertension, Podzolkov, V.I., Mel'nikova, T.S., Suvorova I.A., Churganova L.I., Starovo itova, S.P., Ter Arkh. 1992;64(1):24-7
31. Non-Pharmacologic treatment of shingles., McMakin, C., Practical PAIN MANAGEMENT, 2010;
32. Effects of microcurrent therapy on delayed onset muscle soreness; Welch, M., Medicine and Science in Sports and Exercise 24 (5 suppl), (1995) FACSM, Guilford College, Greensboro.
33. Cranial electrotherapy stimulation reduces aggression in a violent retarded population: a preliminary report., Childs, A., J Neuropsychiatry Clin Neurosci. 2005 Fall;17(4):548-51
34. The use of cranial electrotherapy stimulation to block fear perception in phobic patients. Smith, R.B., Shiromoto, Frank N., Current Therapeutic Research, 51(2):249-253.
35. Cranial electrotherapy stimulation (CES) and the reduction of stress symptoms in a sheriff's jail security and patrol officer population. Mellen, R.R; Mackey, W. , American Jails, 22(5):32-38
36. Cranial Electrotherapy Stimulation Review: A Safer Alternative to Psychopharmaceuticals in the Treatment of Depression. Gilula, M.F. & Kirsch, D.L. Journal of Neurotherapy, Vol. 9(2) 2005
37. Response From Cranial Electrotherapy Stimulation (CES) for Chronic Pain Holubec, J.T. Cumulative Practical Pain Management, 9(9):80-83, 2009
38. Biofeedback and electromedicine reduce the cycle of pain spasm pain in low back patients Zimmerman, S. I., and F. N. Lerner (1989); Medical Electronics, 117:108-120.
39. Brotman, P., Low-intensity Transcranial Electrostimulation Improves the Efficacy of Thermal Biofeedback and Quieting Reflex Training in the Treatment of Classical Migraine Headache American Journal of Electromedicine, 6(5):120-123, 1989.
40. Safety and effectiveness of cranial electrotherapy in the treatment of tension headache., Solomon, S., Elkind, A., Freitag, F., Gallagher, R.M., Moore, K., Swerdlow, B., Malkin, S., Headache. 1989 Jul;29(7):445-50.
41. The treatment of fibromyalgia with Cranial electrotherapy stimulation, Lichtbroun, A.S., Raicer, M.C. and Smith R.. Journal of Clinical Rheumatology. 2001 7 (2):72-78
42. Cytokine changes with microcurrent treatment of fibromyalgia associated with cervical spine trauma.,
43. Cytokine changes with microcurrent treatment of fibromyalgia associated with cervical spine trauma. McMakin C.R., Gregory W.M., Phillips T.M., Bodywork Movement Ther. 2005 Jul;9(3):169-176
44. The Use of Microcurrent Electrical Therapy and Cranial Electrotherapy Stimulation in Pain Control. Kulkarni, A.D. and Smith, R.B., Clinical Practice of Alternative Medicine. 2(2):99-102, 2001

45. Effectiveness of Microcurrent Therapy in the Management of Lateral Epicondylitis: A Pilot Study, Ho, L.O.L., Kwong, W.L., Cheing, G.L.Y., Hong Kong Physiotherapy Journal, Volume 25, Complete, Pages 14-20, 2007
46. Comparison of subliminal and placebo stimulation in the management of elbow tendinitis., Rolle, W.C., G. Alon, R.P. Nirschl, J. Sobel, J Clin Electro-physiol, 1994. 6: p. 4-9
47. Effectiveness of transcutaneous electrical nerve stimulation and microcurrent electrical nerve stimulation in bruxism associated with masticatory muscle pain--a comparative study. Rajpurohit B, Khatri SM, Metgud D, Bagewadi A. Indian J Dent Res. 2010 Jan-Mar;21(1):104-6.
48. Frequenzmodulierte mikroströme niedriger intensität sind erfolgreich in der behandlung des morbus sudeck., Dertinger, H., Henke, R., Mikus, E.W.J., ASM, Volume 1, 2003
49. Control of Cigarette Cravings with Cranial Electrotherapy Stimulation Eidelmann, W.S., The Townsend Letter for Doctors, 311(6): 81-85, 2009
50. Transcutaneous electrical nerve stimulation for pain management in patients with uncomplicated minor rib fractures., Oncel M, Sencan S, Yildiz H, Kurt N., Eur J Cardiothorac Surg. 2002 Jul;22(1):13-7.
51. Time-dependent effect of transcranial direct current stimulation on the enhancement of working memory. Ohn, S., Parkd, C., Yooe W.K., Kof M.H., Choia, K.P., Kimb, G., Leec, Y., Kim, Y., Neuroreport 2008;19:43-47.
52. Noninvasive cortical stimulation with transcranial direct current stimulation in Parkinson's disease. Fregni, F., Boggio, P.S., Santos, M.C., Lima, M., Vieira, A.L., Rigonatti, mS.P., Teresa, M., Silva, A., Barbosa, E.R., Nitsche, M.A., Pascual-Leone, A., Mov Disord 2006;21:1693-1702.
53. Effects of transcranial direct current stimulation on working memory in patients with Parkinson's disease. Boggio PS, Ferrucci R, Rigonatti SP, Covre P, Nitsche M, Pascual-Leone A, Fregni F. J Neurol Sci 2006;249:31-38.
54. Repeated sessions of noninvasive brain DC stimulation is associated with motor function improvement in stroke patients. Boggio PS, Nunes A, Rigonatti SP, Nitsche MA, Pascual-Leone A, Fregni F. Restor Neurol Neurosci 2007;25: 123-129.
55. Improved naming after transcranial direct current stimulation in aphasia. A Monti, F Cogiamanian, S Marceglia, R Ferrucci, F Mameli, S Mrakic-Spota, M Vergari, S Zago, A Priori J Neurol Neurosurg Psychiatry 2008;79:451-453
56. Effects of brain polarization on reaction times and pinch force in chronic stroke. Hummel FC, Voller B, Celnik P, Floel A, Giroux P, Gerloff C, Cohen LG, BMC Neurosci 2006;7:73
57. Transcranial direct current stimulation improves recognition memory in Alzheimer disease. Ferrucci R, Mameli F, Guidi I, Mrakic-Spota S, Vergari M, Marceglia S, Cogiamanian F, Barbieri S, Scarpini E, Priori A. Neurology 2008 June 4. epub ahead of print.
58. A randomized, double-blind clinical trial on the efficacy of cortical direct current stimulation for the treatment of major depression. Boggio PS, Rigonatti SP, Ribeiro RB, Myczkowski ML, Nitsche MA, Pascual-Leone A, Fregni F., Int J Neuropsychopharmacol. 2008 Mar;11(2):249-54. Epub 2007 Jun 11.
59. A Controlled Clinical Trial of Cathodal DC Polarization in Patients with Refractory Epilepsy. Fregni F, Thome-Souza S, Nitsche MA, Freedman SD, Valente KD, Pascual-Leone A. Epilepsia, 47(2):335-342, 2006
60. Effectiveness of transcranial direct current stimulation and visual illusion on neuropathic pain in spinal cord injury. Soler MD, Kumru H, Pelayo R, Vidal J, Tormos JM, Fregni F, Navarro X, Pascual-Leone A. Brain. 2010 Sep;133(9):2565-77. Epub 2010 Aug 4.
61. A randomized, shamcontrolled, proof of principle study of transcranial direct current stimulation for the treatment of pain in fibromyalgia. Fregni F, Gimenes R, Valle AC, Ferreira MJ, Rocha RR, Natalle L, Bravo R, Rigonatti SP, Freedman SD, Nitsche MA, Pascual-Leone A, Boggio PS. Arthritis Rheum 2006;54:3988-3998.
62. Use of low intensity direct current in management of ischemic skin ulcers. Gault WR, Gatens PF Phys Ther. 1976;56:265-269.
